

# DAYSRING AIRPARK NEWS LETTER

## October 1st, 2006

On August 12<sup>th</sup> we held our first fly-in breakfast, here at the Dayspring Airpark. Even with less than perfect flying conditions four pilots and their friends flew in, while many others chose to drive in by car to join us, for an enjoyable morning.

I'd like to thank all those people who attended and we look forward to next year's event. Among the visiting aircraft were a Cessna 185, a Citabria, an R-22 Helicopter and Aeronca.

With only marginal support we managed to accomplish a lot here this year at the airpark. We look forward to doing as much over the next year.

I foresee a day in the near future that we will have a dozen plus pilots and their families living here, enjoying all that aviation, and the South Shore of Nova Scotia, has to offer.

We'd like to soon extend the runway another 500 feet plus for a total of 2500 feet. We'll then lay down the recycled asphalt we've been saving over the entire length of the runway. We would also like to put up another hanger and move the remainder of the embankment by the Leary Fraser Road. As soon as we have commitments from pilots to rent or lease hangers we intend to do both.

The potential for this project and the benefits to the area I believe are far reaching. I intend to make Soaring Heights one of the best, communities in all of Nova Scotia to live in.

I invite anyone who thinks they might be interested in learning more about flying to give me a call. Recreational flying today is more affordable than ever before.

On a personal note, Revenue Canada must have sudden interest in aviation as they have been reviewing our web site on a few occasions. They evidently have heard from our friends, about all our great work we have been doing, to create an airpark here in Lunenburg County. I invite anyone from government who is interested in our project to give me call. I'd be more than happy to show you first hand our goals for this development, how we intend to accomplish them, and how everyone whom participates in this project will benefit.
